

Graduate Student Research Support Grant

Title Page

Award Period: *Nov. 2019 - June 2020*

Name of Student Applicant			Degree Program	
Project Title				
Student email			Anticipated Graduation Date	
Budget/ Requested Amount			Faculty mentor	
	Applied Research	Applied research is a form of systematic inquiry involving the practical application of science. It accesses and uses some part of the research community's accumulated theories, knowledge, methods, and techniques, for a specific, often state-, business-, or client-driven purpose		
	Basic Research	Basic Research is performed without thought of practical ends. It results in general knowledge and understanding of nature and its laws.		
	Developmental Research	Developmental research is systematic application of knowledge or understanding, directed toward the production of useful materials, devices, and systems or methods, including design, development and improvement of prototypes and ' creating new or improved products/processes.		
	Extension/Public Service	Extension research is delivering information and services to the non-APSU non-scientific community. If the project is research into public health methods/delivery techniques, then the appropriate research project type applies.		
	Humanist Research	Humanities research are often posing questions about common assumptions, uncovering new meanings in artistic works, or finding new ways to understand cultural interactions
